Project Title: Liverpool FC 2019-2020 season

This site will have a small rundown of the team and not too many clicks. Clicks are not fun, and the clicks I do have will be at the top of the page and maybe a little strip after the initial content of the page. There's so much photography and predetermined color schemes

- **Home page**- slideshow of some of the images from this season, quick rundown of the team's history, kits for this year
- **Manager**- give a spotlight on the manager Jurgen Klopp
- **Roster**- run through this year's roster by positions
- **League games** – show the schedule and for the games that have been played already, give the score and the goals
- **Sources Page**- including the Wikipedia page and other photographs
